

## Electricians Mate

📍 Pontefract, City and Borough of Wakefield

£ £11.25/hour Potential overtime available

---

ADE Power Ltd have a busy team of Electricians and we currently have a position available for an electricians mate to assist qualified Installation Electricians to assist in the installation of small light and power within our bespoke purpose built generator and switchgear housings.

The role will include working with other electricians and electrical support staff. Following 2D&3D drawings you will be required to measure cut and install containment and fixtures and fittings to a high standard, labeling.

We require electricians mates who are conscientious in their way of working, self-motivated and able to work on own initiative, but be able to cope with the pace of production whether working as part of a team or on their own.

Starting salary of £11.25 per hour

40 hours per week, Monday to Friday, 8am to 4.30pm.

Potential overtime available
